

From the Board of Commissioners

The purpose of this second declaration is to allow for the full membership of the Board of Commissioners to add their vote and to announce additional preventative measures for the safety of all; county employees and the public at large.

The main way this may affect you is that all county offices will be closed with limited access for only those actions which are critical. This begins 3/24/20 at 8am. You are advised to contact county offices by phone before making a trip to their locations. See Section IV A and E for further explanations.

Other sections of the declaration deal with how county business will be conducted and how spending issues dealing with COVID-19 will be dealt with.

There are still no COVID-19 cases in LaGrange County, and working together we wish to keep it that way. Please continue to wash your hands vigorously, clean surfaces daily, and avoid group contact with others. You can help by following all the guidelines issued by the President, the Federal Emergency Management Agency, the Centers for Disease Control, the Indiana Governor's Office, the Indiana Department of Homeland Security, the Indiana State Department of Health, and the LaGrange County Health Department.
